## **ROURKELA STEEL PLANT, ROURKELA**

### **PERFORMANCE CERTIFICATE**

**Date: 07/09/15**

#### **TO WHOMSOEVER IT MAY CONCERN**

DC brake assembly for different types of Kakku make are in use in Coke Ovens Department since April'2013 which are as follows:

Type of brake assembly	No. of installation (Nos.)	Area of installation
KCH-600	04	CDCP lifter drive
KCH-400	04	Ram car pusher drive
KCH-300	04	Ram car leveller drive
KCH-250	36	Ram car & Charging car Long Travel drive
KCH-200	08	Guide car Long Travel drive

So far as foundations are concerned, these are almost matching to BCH make brake assembly foundations. Performance wise these brakes are functioning satisfactorily.
